

LifeViz[®]

MINI PRO

Secure & Trusted

3D PHOTOGRAPHY

for lasting patient connections

3D

Transforming

Facial aesthetic
consultations

QuantifiCare

— STANDARDIZED, HIGH-QUALITY PHOTOGRAPHY

✓ EASIER

Automatic image sorting from assistant acquisition to patient records. Engage your team.

⌚ FASTER

Optimize analysis time for more in-depth consultations. Focus on the patient.

💡 SMARTER

Automatic 3D image preparation, ready for analysis. A breakthrough in 3D.

— IMPROVE PATIENT CARE & ROI

From the first visit...

COMMUNICATE, VISUALIZE, REASSURE

- Effectively communicate and reassure patients
- Improve the understanding of treatment options
- Accelerate decision-making

...to the last

SATISFACTION, TRUST, LOYALTY

- Enable patients to see post-treatment results
- Increase treatment conversions
- Elevate patient experience and practice reputation

CAMERA TYPE

Mirrorless with improved image quality

FIELD OF VIEW

Capture entire face with maximum accuracy

TECHNOLOGY

3D Stereophotogrammetry with dual beam pointers

— HOW DOES IT WORK ?

1 CAPTURE

standardized pictures using a dual-beam pointer system

2 RECONSTRUCT

a 3D model automatically with AI

3 MATCH

the picture with facial recognition to an existing patient folder

4 VISUALIZE

a lifelike patient image and begin the assessment

— HELP PATIENTS SEE MORE CLEARLY

- Evaluate skin quality in 3D
- Make tailored treatment recommendations
- Advise using a library of skincare products

— ASSESS TO ADVISE TREATMENT

- Assess facial angles
- Take precise measurements, heights and widths
- Simulate on life-like 3D image of patient

SCORING

+2.31mL

VOLUME
CHANGES

148.7°

MEASUREMENTS

122.1°

B/A

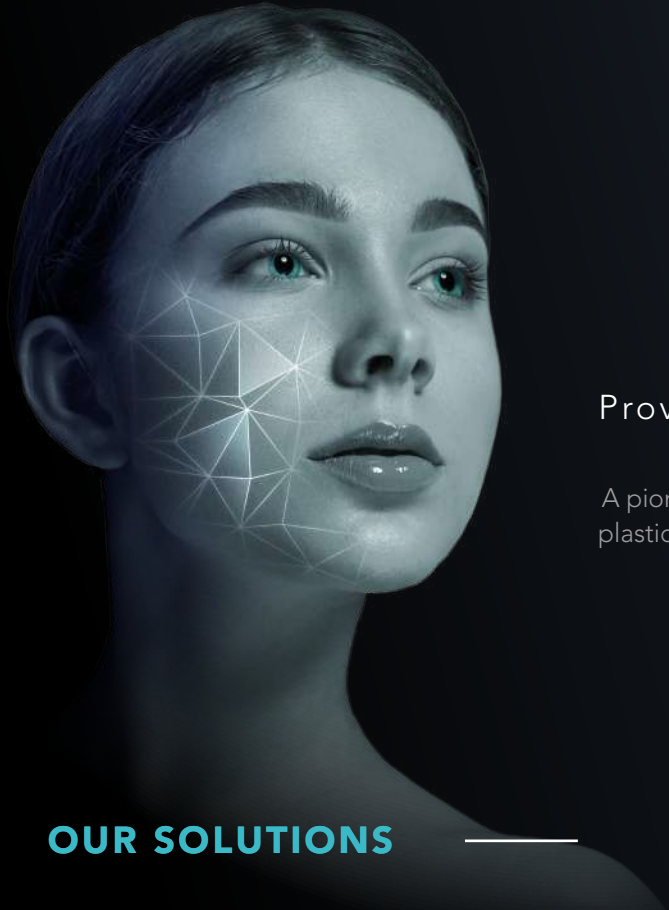

— REINFORCE PATIENT LOYALTY

- Showcase meaningful b/a images
- Visualize and quantify volume changes
- Validate treatment results
- Compare using multiple display options :
Slider / silhouette / side by side / cursor box
- Evaluate and quantify skin lifting / tightening in 3D

— MARKET YOUR PRACTICE

- Export images and videos in .jpg, .png and .mp4
- Showcase results on social media

QuantifiCare

Providing **Proof** through **Images** since 2001

A pioneer in 3D photography, QuantifiCare empowers dermatologists, plastic surgeons, and aesthetic practitioners with cutting-edge imaging solutions to visualize and track patient outcomes.

OUR SOLUTIONS

PORTABLE & COMPACT

No dedicated room needed – take it anywhere.

USER-FRIENDLY

AI automation and QC Academy for seamless training.

ALL-IN-ONE SOLUTION

3D visualization, precise measurements, skin analysis, and simulations.

FAST & RELIABLE

Standardized images, reproducible results, and reports in <2 minutes.

SCIENTIFICALLY TRUSTED

Used in clinical trials by 8 of the top 10 pharma leaders.

LifeViz[®] neo

cloud

Streamline your workflow

Reduce preparation time with AI and facial recognition for better consultations.

Elevate patient experience

Deliver real-time 3D visuals to patients' mobiles to keep patients satisfied during treatment journey.

Connect your clinic network

A fully integrated, secure cloud solution for multi-site clinics. Seamless data access and collaboration.

Focus on security and compliance

Ensure secure, GDPR-compliant data management with no medical breach history.
